

Fusiontables by Elba Decor

To play pool at home

In these modern times space is becoming an expensive commodity and a real interior design challenge. Middle East towers are on that point the ideal place to showcase and highlight this trend.

Having a pool table at home means often a sort of luxury dream not affordable for the most of us. Fusiontables's design collection could probably invite pure pool players and contemporary design fans to be reconciled to play pool at home again.

We at Saluc, are producing the most used competition billiard balls for several decades under the trade mark ARAMITH major tournament supplier all over the world.

We launched 8 years ago a very modern pool table able to move up and down to reach the correct pool or dining table conventional levels. Our design team managed to hide totally a real slate pool table of more than 300kg into a 11cm deep minimalistic dining table frame in various metal colors, wood sorts and - cherry on the cake - the table is equipped by Iwan Simonis high quality cloth available in more than 25 colors. The powder coated steel legs and frame are sleek enough to cover up its traditional pool tracks, the extending nylon pockets are just invisible as long as you don't play and the art-of-state veneered wood cover gives you a nice elegance feeling.

After the most eye-catching and exclusive model named «Veuve Clicquot limited edition», a yellow black tagged model designed to celebrate the famous Veuve Clicquot champagne brand as a iconic symbol of the meeting between two passionate pioneers, Fusiontables is featuring this year a new brand model with ceramic surfaces under the name «Rock Reverso» However you don't like the yellow high gloss cover or Stone cover, you could enjoy mat black, white lacquered or even oak, walnut natural, smooth and sober finishings.

In USA, Europe and Emirates Fusiontables go further in development with a full new range of wood legs tables and a new Vintage industrial styled model featuring reclaimed oak planks.

With its collection Fusiontables will definitely satisfy your taste for amazing minimalistic contemporary interiors made of highgloss white pieces or loft industrial tones or even natural zen chalet touch and your urge to live precious moments with your friends or family.

So turn off your TV or computer to turn back to pure and relaxing sensations.

Saluc Sa based in Belgium are part of Iwan Simonis group world leader in manufacturing of competition pool clothes. Fusiontables is distributed in Emirates by Elba Decor company.
