

DESIGN IN DETAIL

FORM MEETS MULTI-FUNCTION: MULTI-TASKING FURNITURE

One of the newest trends in furniture is multi-functional pieces. Solutions, ideal but not exclusive for small space living, are not only good looking but very functional. These multi-tasking furnishings can really make the most out of your space. Just image the possibilities!

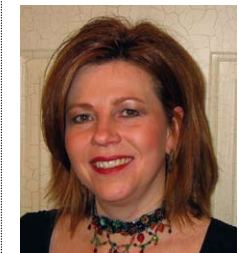

1 | STORAGE SOFA Conquer the 'never enough' storage problem with this storage sofa. The clever hardware makes this easy to use for anyone. The adjustable height back makes it low and sleek for entertaining but also comfortable for lounging. Great style, comfort and function!

2 | ADJUSTABLE HEIGHT BAR STOOL Convert your bar stools into dining chairs with a quick release of the hydraulic lift mechanism. Ideal when extra dining chairs are needed for large family dinners. Or combine with the adjustable dining table and create a dining room setting for the occasional dinner party.

3 & 4 | FUSION TABLE After dinner game of pool anyone? Finally, a dining table that converts into a pool table. Remove the top, adjust the height with a quick maneuver and let the games begin! This table can also be used for your home or office desk or your office boardroom table. It is available in a variety of finishes to suit your decor.

5 & 6 | CHAMELEON TABLE With one quick maneuver, this shelving unit becomes your dining table.

7 & 8 | ADJUSTABLE HEIGHT TABLE By day a cocktail table, by night a dining table or any combination you prefer. This expandable, adjustable height table offers many options for your living & dining space.
