Top Table

A dining table's functionality supposedly stops at dessert. So when a group of individuals joined forces to tackle this problem, they aimed at incorporating the essentials along with an added fun factor. The fusion table is a dining table, a pool table and a games table. Finished eating? Flip it over.

Price 9,000 USD (wood version)
13,500 USD (stainless version)
www.fusiontables.com

Lightness of Being

The Eclipse light may date back to 1982 but it remains part of the permanent collection of MoMA's Department of Architecture and Design. Designed by acclaimed Brazilian designer Mauricio Klabin, it is formed from a single strip of polypropylene attached to a steel frame, allowing you to change the direction of the lighting to suit your taste.

Price 150 USD

Sail Away

Mark Gabbertas, known for his unconventionalism when designing furniture, incorporates the concept of freshness in all his models. The Eclipse outdoor furniture set has been designed with top of the line woven fibres and features armchairs, sofas and footstools. *Bespoke's* favourite is the Eclipse Relaxer that even has an attachable sail.

Price 7,000 USD (sail is an extra 945 USD)
